SKILLS

Languages & Markup — HTML5 | CSS3 | JavaScript

Frontend Development — Responsive Design | Mobile-First Workflow | Flexbox, CSS Grid | Semantic HTML | JavaScript (in progress)

Tools & Platforms — Git | GitHub | VS Code | Netlify

Learning & Practice — Scrimba | FreeCodeCamp | Thrive Academy

PROJECTS

EduPro Learning Website

Designed and developed a responsive educational website using semantic HTML and mobile-first CSS principles. Implemented structured card layouts, interactive hover states, and basic form validation with a clean, modern UI.

Tech: HTML5, CSS3 (Grid, Flexbox), Google Fonts, Font Awesome

GitHub: <https://github.com/krowey-richmond/css-master-app-1> 

Live Demo: <https://css-master-app-1.netlify.app> 

DevChallenges Portfolio Homepage

Created a personal project homepage to showcase multiple completed DevChallenges projects (6–7 challenges). Built a responsive layout to present projects consistently, demonstrating reusable layout patterns, modern CSS techniques, and attention to structure and accessibility.

Tech: HTML5, CSS3 (Grid, Flexbox), Media Queries, Transitions

GitHub: <https://github.com/krowey-richmond/devChallenges> 

Live Demo: <https://devchallenges-projects.netlify.app/>
